4th May

Inauguration of Society's 10th Hospital at Gangotri Dham

The occasion was graced by Pujniye Shri Mata Mangla Ji and Shri Bhole Ji Maharaj of The Hans Foundation and Dr Krishna Gopal Ji, Sah Sarkaryavah of RSS as chief guests. Other dignitaries who graced the inauguration included Shri Yudhveer Ji (Prant Pracharak, RSS), Shri Mahendra Ji (Kshetriya Pracharak, Western UP & UK, RSS), Smt. Vijayalakshmi Ji (Daughter of Shri Aadi Narayan Raju Ji) and Dr S K Verma (President, SVHM Society).

Shri Aadi Narayan Raju Ji, 93 years old senior citizen (Renowned Senior Advocate & Social Worker) from Bhagyanagar, Telangana has donated for Society's Gangotri Dham Hospital. The 24x 7, ICU equipped hospital is offering regular OPD facilities as well as diagnostics like Digital X-Ray, ECG and Lab investigations. Also there are wards with beds having oxygen facilities.

Swami Bodhanand Ji,
Dandi Kshetra, Uttarkashi

Shri Aadi Narayan Raju Ji

The event was also attended by the large number of voluntary doctors associated with SVHM Society.

24th May: Women Health Education Session

Health Education Session at Sadhna Kendra Ashram, Dumet, Vikasnagar. An orientation session on Menstrual Hygiene and Breast and Cervical Cancer awareness was taken by Dr Tarashree Singhal (Dharmawala Hospital) for the Teachers of Baba Bhumanshah Vidya Mandir. The session had an active participation from the audience with a lot of queries and misconceptions related to menstruation and Gynaecological issues which were nicely addressed and clarified.

Special Visits

8th May

Gangotri Dham Hospital

Shri Chatar Singh Chauhan, SDM, Bhatwari & Nodal Officer, Char Dham Yatra, Gangotri Dham after inspection remarked that the available facilities are better than other hospitals. He praised the efforts and assured support in every possible manner.

28th May

Shri Badrinath Dham Hospital

Shri Parag Desai, Executive Director, Wagh Bakri Tea Group was full of praise after seeing the facilities and was impressed by the selfless service attitude of the staff working at such high altitudes.

18th May

Shri Kedarnath Dham Hospital

Dr Saroj Naithani (Director, MH & FW, National Health Mission, Uttarakhand)

Feedback provided by Dr Saroj Naithani

I had the privilege to visit "Swami Vivekanand Charitable Hospital" at Shri Kedarnath ji Dham at Base Camp at an altitude of 11,000 feet.

I salute the Team for the dedication n' Spirit with which they are "Serving Before Self" "My Brothers n' Sisters" Selflessly.

Very technically arranged ICU (2 Bed) n' 4 Beds for all the other Emergency, fully furnished Pathology, Pharmacy with approx 200 varieties including a list of 30 approx life saving drugs, A digital X-ray, Computerized ECG Machine.

What- Could we Ask. God Bless all.

18th May '2022 3.57 pm Dr Saroj Naithani Director MH&FW UK NHM.

Though there are nearly 4000 plus emergencies dealt successfully by our Dham hospitals and each one has its own narrative but we are sharing a few of those success stories which will touch your heart.

6th May

To listen to the attendant's feedback

<https://youtu.be/qgPRYoNws9c>

- A 60 year old female pilgrim fell from a height of approximately 250 feet after being hit by a mule during her journey.
- With the blessings of Shri Kedar Baba the patient survived the fall and was brought to our hospital in a critical condition with injuries over her head and both lower limbs.
- Patient was immediately shifted to ICU and stabilized with necessary medications and her wounds over head were sutured (27 stitches).
- The patient remained under continuous strict monitoring and care which led to the improvement within a few hours.

24th May

- A 62 year old female pilgrim from Madhya Pradesh presented with very high fever (106.8 F) associated with vigorous shivering and altered behaviour. Her BP was also low and SpO2 was 56%.
- Patient was immediately shifted to ICU and given oxygen support.
- Continuous vigilant monitoring and care led to improvement after a few hours with her temperature returning to normal, BP stabilizing and SpO2 also improving.

- A group of 4 young female pilgrims from Delhi were injured as the tent in which they were staying collapsed due to heavy snowfall thus exposing them to the harsh winter conditions.
- Learning about the mishap, our hospital staff braving the rough conditions rushed to the site and brought all 4 to our hospital carrying one of them in their arms.
- All 4 were in a state of hypothermia (low body temperature condition) as well as were having multiple injuries.
- All were provided with warmth, necessary treatment and support and then discharged in stable condition.

26th May

<https://youtu.be/BWSL0Ik3wBE>

27th May

- A 59 year old female pilgrim injured her left arm as a result of fall while on her way to the temple.
- Presented to us with immense pain and swelling of the left arm. X-ray revealed fracture of her left arm bone. The patient underwent closed reduction and a U shaped plaster slab was applied on her left arm.
- Relieved of her pain and discomfort, the patient was then discharged in a stable condition.

Success Stories

Shri Badrinath Dham Hospital

20th May

31st May

To listen to the feedback

<https://youtu.be/Yylrs2q9u6k>

- A 72 year old male pilgrim hailing from Mumbai was brought with complaints of difficulty in breathing, severe chest pain and headache.
- The patient was immediately attended to and necessary treatment was given leading to improvement in his condition.
- The relatives of the patient were full of gratitude to the entire team of hospital and the Society. They further said that this hospital has proved to be Sanjeevani (a lifesaving medicinal herb mentioned in "Ramayan") for the pilgrims and the local folk. They never thought that such medical facilities would be available in this remote location and high altitude.

- A Sr. Orthopaedician from Gwalior, Madhya Pradesh presented in our hospital with complaints of severe headache, neck pain and a low SPO2 level. He was immediately given Oxygen support along with other necessary treatment.
- Once his condition improved including the SPO2 level, he was discharged in a stable condition.
- Being an owner of two hospitals himself, the patient was overwhelmed with the overall facilities available in our hospital.
- He saluted the Society's initiative of operating a well-equipped hospital at such high altitude and offered to serve the Society hospitals whenever needed.

Gangotri Dham Hospital

7th May

8th May

- A 40 year old female pilgrim from Maharashtra was brought with complaints of loose stool, vomiting and weakness since the last two days.
- The patient was found to be suffering from Acute Gastroenteritis with dehydration.
- She was given required treatment and once stabilized was then discharged.

- A 48 year old female pilgrim from Gorakhpur was brought with complaints of shortness of breath, severe giddiness and restlessness in our hospital.
- Her SPO2 was below 70% and she was diagnosed as suffering from Acute Mountain Sickness. She was quickly attended to and stabilized by providing immediate Oxygen support and other necessary treatment.
- Once stabilized the patient was discharged in healthy condition

Haridwar Hospital

22nd May

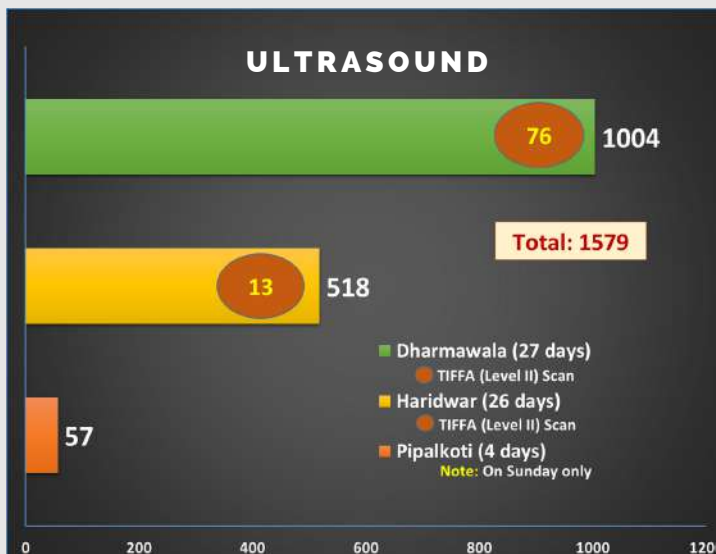

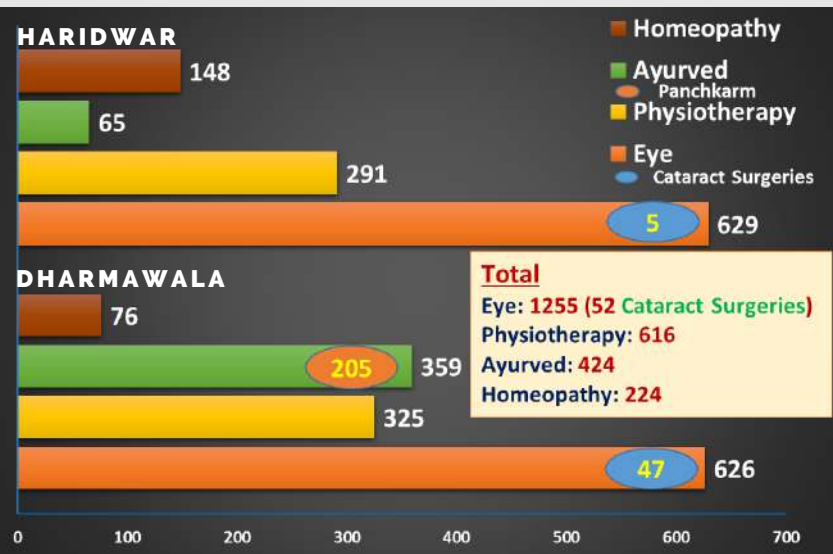

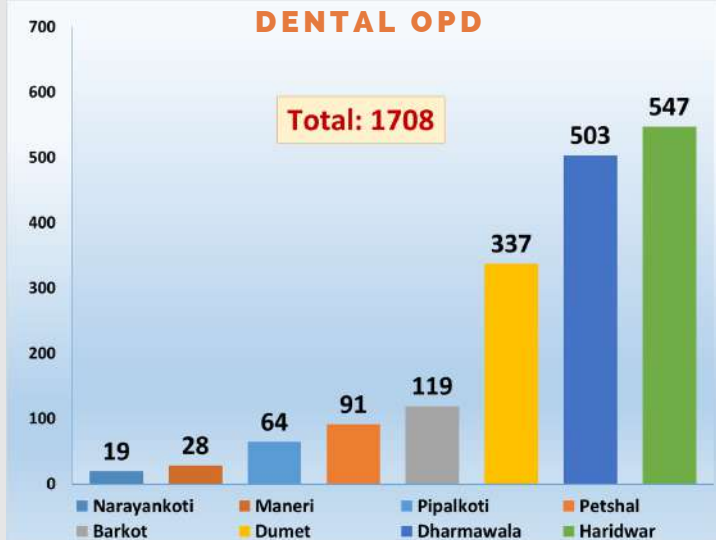

Another milestone achieved by conducting first successful "Hip Joint Replacement Surgery"

- A 23 year old labourer hailing from a slum of Roorkee was crippled due to fracture of his right hip bone as a result of an unfortunate accident 2 yrs. ago. The treatment required a total hip replacement surgery, cost of which was beyond his reach due to the poor socioeconomic background.
- He continued to suffer from the ailment until he attended one of our outreach camps and was then referred by one of the camp volunteers to our hospital. The Society then approached one of our donors who readily agreed to bear the expense of the surgery.
- He was operated successfully and was relieved of his malady and disability.

Orthopaedic Surgeons team composed of Dr Gyaneshwar Tonk, Meerut, Dr Naveen Agrohi, Roorkee and Dr Priyank Aggarwal, Noida conducting the surgery with Dr Sudhi from Roorkee as the Anaesthetist.
